Plant and Soil **132**: 307–309, 1991.

Contents of Volume 132 1991

Volume 132, No. 1

J. E. Johnson, J. A. Burger, R. A. Rathfon, R. E. Kreh and P. P. Feret, Foliar nutrient comparisons of pitch pine, loblolly pine, and the pitch · loblolly hybrid 1

W. Weyman-Kaczmarkowa and D. Wójcik-Wojtkowiak, The dynamics of microflora and the occurrence of phytotoxic substances in different soils with corn residues and inorganic nitrogen 11

M. Srihuttagum and K. Sivasithamparam, The influence of fertilizers on root rot of field peas caused by *Fusarium oxysporum, Pythium vexans* and *Rhizoctonia solani* inoculated singly or in combination 21

P. M. Chalk, The contribution of associative and symbiotic nitrogen fixation to the nitrogen nutrition of non-legumes 29

E. J. Gonçalves, J. J. Muchovej and R. M. C. Muchovej, Effect of kind and method of fungicidal treatment of bean seed on infections by the VA-mycorrhizal fungus *Glomus macrocarpum* and by the pathogenic fungus *Fusarium solani*. I. Fungal and plant parameters 41

J. J. Muchovej, R. M. C. Muchovej and E. J. Gonçalves, Effect of kind and method of fungicidal treatment of bean seed on infections by the VA-mycorrhizal fungus *Glomus macrocarpum* and by the pathogenic fungus *Fusarium solani*. II. Temporal-spatial relationships 47

R. C. Martin, H. D. Voldeng and D. L. Smith, Nitrogen transfer from nodulating soybean to maize or to nonnodulating soybean in intercrops: the ^{15}N dilution method 53

M. M. Panda, M. D. Reddy and A. R. Sharma, Yield performance of rainfed lowland rice as affected by nursery fertilization under conditions of intermediate deepwater (15–50 cm) and flash floods 65

Y. Bashan, G. Mitiku, R. E. Whitmoyer and H. Levanony, Evidence that fibrillar anchoring is essential for *Azospirillum brasilense* Cd attachment to sand 73

J. E. Sachay, R. L. Wallace and M. A. Johns, Phosphate stress response in hydroponically grown maize 85

R. R. Simard, T. S. Tran and J. Zizka, Evaluation of the electro-ultrafiltration technique (EUF) as a measure of the K supplying power of Quebec soils 91

M. S. El-Abyad, M. A. Gabr and A. M. Abu-Taleb, Metabolic activities of the sugarbeet pathogens *Fusarium solani* (Mart.) Sacc. and *Sclerotium rolfsii* Sacc. under pyramin stress 103

K. T. Ingram, M. Dingkuhn, R. P. Novero and E. J. Wijangco, Growth and CO_2 assimilation of lowland rice in response to timing and method of N fertilization 113

R. S. Pacovsky, P. Da Silva, M. T. Carvalho and S. M. Tsai, Growth and nutrient allocation in *Phaseolus vulgaris* L. colonized with endomycorrhizae or Rhizobium 127

R. S. Pacovsky and G. Fuller, Nitrogen assimilation and partitioning in two nitrogen-fixing cultivars of *Phaseolus vulgaris* L. 139

M. Becker, K. H. Diekmann, J. K. Ladha, S. K. De Datta and J. C. G. Ottow, Effect of NPK on growth and nitrogen fixation of *Sesbania rostrata* as a green manure for lowland rice (*Oryza sativa* L.) 149

Volume 132, No. 2, 1991

W. Petersen and M. Böttger, Contribution of organic acids to the acidification of the rhizosphere of maize seedlings 159
D. Scholefield, D. R. Lockyer, D. C. Whitehead and K. C. Tyson, A model to predict transformations and losses of nitrogen in UK pastures grazed by beef cattle 165
A. P. Jackson and B. J. Alloway, The bioavailability of cadmium to lettuce and cabbage in soils previously treated with sewage sludges 179
M. Mench and E. Martin, Mobilization of cadmium and other metals from two soils by root exudates of *Zea mays* L., *Nicotiana tabacum* L. and *Nicotiana rustica* L. 187
N. Sanginga, D. Gwaze and M. J. Swift, Nutrient requirements of exotic tree species in Zimbabwe 197
M. Faure-Raynaud, C. Daniere, A. Moiroud and A. Capellano, Diversity of *Frankia* strains isolated from single nodules of *Alnus glutinosa* 207
S. Joshi, Interference effects of *Cassia uniflora* Mill on *Parthenium hysterophorus* L. 213
K. R. Tate, T. W. Speir, D. J. Ross, R. L. Parfitt, K. N. Whale and J. C. Cowling, Temporal variations in some plant and soil P pools in two pasture soils of widely different P fertility status 219
K. R. Tate, D. J. Ross, A. J. Ramsay and K. N. Whale, Microbial biomass and bacteria in two pasture soils: An assessment of measurement procedures, temporal variations, and the influence of P fertility status 233
U. Schmidhalter and J. J. Oertli, Germination and seedling growth of carrots under salinity and moisture stress 243
I. Arias, I. Koomen, J. C. Dodd, R. P. White and D. S. Hayman, Growth responses of mycorrhizal and non-mycorrhizal tropical forage species to different levels of soil phosphate 253
D. Föhse, N. Claassen and A. Jungk, Phosphorus efficiency of plants. II. Significance of root radius, root hairs and cation-anion balance for phosphorus influx in seven plant species 261
C. J. Beauchamp, P. Dion, J. W. Kloepper and H. Antoun, Physiological characterization of opine-utilizing rhizobacteria for traits related to plant growth-promoting activity 273
H. Kuppelwieser and U. Feller, Transport of Rb and Sr to the ear in mature, excised shoots of wheat: Effects of temperature and stem length on Rb removal from the xylem 281

Short communications

J. E. Board and A. G. Caldwell, Response of determinate soybean cultivars to low pH soils 289
S. M. Misra, N. C. Sinha and P. S. Tomer, Seed yield of sorghum grown in an alfisol, in relation to boron nutrition at the reproductive phase 293
A. Kumar and S. C. Tripathi, Evaluation of the leaf juice of some higher plants for their toxicity against soil borne pathogens 297
